

Job Title: Mid-Level Environmental Scientist

Job Status: Part Time to start

Location: Edmonds, WA

Stell is a seasoned veteran- and woman-owned small business providing expertise and innovation across the resilience, environmental, restoration, and compliance service sectors. We offer an excellent benefits package that includes medical/dental insurance, 401k opportunities, and paid time off.

Overview:

The Mid-Level Environmental Scientist conducts environmental sampling, evaluates and analyzes data, and assists with technical report writing while working in an effective team environment to meet project goals and objectives.

Responsibilities:

- Participate in site investigation field activities, including but not limited to environmental site assessments; hazardous waste site investigations; field sampling (soil, groundwater, surface water and air); Phase I/II environmental site assessments; permitting; and remedial oversight.
- Conduct data analyses and reduction of field and analytical data.
- Support the preparation of technical reports including but not limited to proposals, environmental reports, permit applications, work plans, health and safety plans, and other written deliverables.
- Gather technical data using computer-based programs to support environmental document development.
- Provide high technical quality and safe job performance.
- Project related travel and ability to work 10 to 12-hour days in the field are required

Qualifications:

- Minimum Bachelor's degree in geology, environmental science, or related scientific discipline. MS is a plus. Current 40-hour OSHA/HAZWOPER training, current 8 hour OSHA/HAZWOPER refresher and Site Supervisor Training a plus.
- 7-12 years' practical experience with the WSDOT Environmental Manual as it pertains to environmental compliance.
- Experience in work plan preparation and technical report writing. Solid technical writing skills required (writing sample may be requested).

- Experience directing and executing field investigations and/or remedial construction oversight with minimal supervision.
- Knowledge of state and federal regulations (NEPA/SEPA preferred).
- Permitting experience in WA State.
- At least one statistics course and excellent data analysis skills are required.
- EIT, PG, PWS or similar certification would help distinguish you as a candidate.
- Adherence to H&S and QA/QC processes and protocols.
- Must be detail oriented, and a team player with good communication and time management skills.

All qualified applicants will receive consideration for employment without regard to their race, color, religion, sex, or national origin.

Please submit a cover letter, indicating salary requirements and availability, along with your CV/resume as a PDF or Word file to careers@stellee.com . No phone calls please.
